INDIANA'S COMMUNITY ALTERNATIVES TO PSYCHIATRIC RESIDENTIAL TREATMENT FACILITIES

“People helping people help themselves”

**Division of Mental Health and Addiction
and
Office of Medicaid Policy and Planning**

The Indiana Division of Mental Health and Addiction (DMHA) and Office of Medicaid Policy and Planning (OMPP) have received a five year grant from the Centers for Medicaid and Medicare Services (CMS) to further develop intensive community-based services for youth who are either residing in Psychiatric Residential Treatment Facilities (PRTFs) or who may be eligible for admission to a PRTF because of their high level of need for mental health services.

GOAL

The goal of the grant is to ensure that eligible families receive adequate and appropriate interventions and support to help maintain their child/youth in the community.

ELIGIBILITY

There are currently 40 access points across the state. Families must meet the following criteria to be eligible:

- Child/youth must be eligible for an eligible Medicaid category
- Family resides in a county that is an access point
- Child/youth being served must be between ages 6-20
- Child/youth must have an assessment completed at the access point which identifies them as needing this level and intensity of service

A child/youth meeting the above criteria and currently residing in a PRTF will be able to access grant services to assist with the transition back to community-based care. Youth living in the community who meet the above criteria may access grant services as an alternative to treatment in a PRTF.

Please refer to the back of this brochure for a list of the access points and contact information.

SERVICES

Families served through the grant will have access to the following services:

- Wraparound Facilitation and Wraparound Technician: planning and support process offered through the Child and Family Wraparound Team
- Non-Medical transportation: to gain access to grant and other community services specified in the Plan of Care
- Training and support for unpaid caregivers: training for those who support the child as specified in the Plan of Care
- Consultative Clinical and Therapeutic Services: for services necessary to carry out the treatment/support plans, including crisis and family counseling
- Respite care: to offer short term relief for caregivers, may be planned or crisis, provided in home or other approved places
- Flex funding: to purchase one-time/occasional goods or services not covered by any other source and directly related to Plan of Care
- Habilitation Services: services to enhance functioning, reduce/prevent substance abuse, increase competencies, strengths and resiliencies

These services are in addition to any other Medicaid services for which the family qualifies.

DELIVERY OF SERVICES

Grant services will be provided through the Wraparound process. All families participating will be asked to assist the Wraparound Facilitator with the following tasks:

- Development of a Child and Family Team that will meet monthly or as needed

- Writing a plan of care for the child/youth that is directed by the needs of the individual or family
- Creation of a crisis plan to ensure families have access to support at all times

CORE VALUES

Children/youth, families/caregivers can expect to participate in a system that is directed by core values. They are often referred to as Systems of Care values.

- ✓ Child centered and family driven with the strengths and needs of the child and family dictating the types and mix of services provided
- ✓ Community-based: services, management and decisions are done in the community
- ✓ Culturally competent, with services that are responsive to the cultural, racial, religious and ethnic differences of the families they serve

EVALUATION OF THE GRANT

All grant recipients will be asked to participate in a national and state evaluation. This will include completing satisfaction surveys as well as an evaluation of the wraparound process.

APPLICATION

Families/caregivers may apply for grant services at their local Community Mental Health Center or through the PRTF where their child is placed.

For additional information please contact Rebecca Buhner, CA-PRTF@fssa.in.gov, 317.232-7892.
